

RUG PAD CANADA

QUALITY IS OUR TOP PRIORITY

Double Cushioned Rug Pad

Added cushion and solid design provides additional floor coverage over waffle style padding ideal for keeping floors protected from furniture and rough rug backings.

Recommended: Double cushioned rug pad works with all types of rugs on hard surface flooring. It works particularly well with flat - woven rugs. Felt surface will fasten itself to the underbody of your rugs, while a non-slip rubber backing will anchor your rug to the floor.

- High performance rubber won't break apart or wear with time
- Solid design protects floors from scratching & dye transferring
- Allows rugs to lay flush with floors – ideal if rug thickness or door clearance is an issue
- Rubber non-slip backing is 100% safe for all floors – will not stain or mark floor
- Helps protect floors and prevent transfer of dyes from area rugs
- Environmentally friendly – uses 100% recycled felt
- Resists moisture, mildew, mould and moth
- Felt surface layer adds comfort, insulation, and floor protection – helps soften rugs and adds floor protection
- No odours or off-gassing - hypoallergenic
- Dense recycled fibre core offers soundproofing and acoustical benefits
